STAFF MESSAGE

Mr. Daichi Morikuni
 ENGINEERING DEPARTMENT
 PRODUCT DEVELOPMENT
 DIVISION

I'm Daichi Morikuni, an engineer at ASAHI DENSO R&D ASIA CO., LTD. We specialize in the designing of products for motorcycles, as well as mechanical parts and electronic products. The designing tasks are very rewarding as they provide us with a lot of knowledge. As we have only started up recently, you can be the leading player in our company. Please visit us at our booth for more information. We are looking forward to seeing you there.
