COMPANY'S PROFILE

Since its founding, Nifco has consistently offered solutions to its customers' problems and has operated a "proposal style" of business. For example, in automobile industry, plastic fasteners have contributed to energy and cost savings on production lines; cup-holders or coin boxes in cars which use small-sized dampers to control the motion when opened or closed create a feeling of quality: Nifco has developed very creative products. Nifco's products find applications in diverse areas from automobiles, home electric appliances, office automation products, to fashion and sporting goods. Including the sales of the high quality bed manufacturer, Simmons, the total annual revenues of the Nifco Group exceed 200 billion YEN.

COMPANY'S MESSAGE

PRESIDENT

We aim to become Product Design Center of Automotive industrial in Asian region. And to be top five leading company in Design & Products development among Global Nifco Group.

FROM JAPANESE STAFF

Nifco expects personnel with a strong challenge seeking mentality. Spirit of challenge personels with a active and curiosity person.

FROM THAI STAFF

Do you interest in Japan or Japan technology? If you have that !! we are your answer. If you have motivation and challenge spirit, we need to work with you.

We are looking for new generation who has passion in design and creative innovation, to join our design center team. Step into the future Automotive industry and move forward together.
