At Daido Steel Group, where we give new employees work with real responsibility, we are looking for staff who can think and act for themselves.

Daido Steel Group provides a working environment where young staff can speak frankly regardless of age or career, and realize their own ideas.

COMPANY'S MESSAGE

Mr. SOMNUK PUTHISAVADCHAI
Director SIAM DKT CO., LTD.

I joined DAIDO KOGYO (THAILAND) CO., LTD. - a trading company of Daido Steel Group in Japan - in 2001 in the position of Marketing Manager. We are an importer of stainless and specialty steel from Japan and sell it to Japanese joint ventures in electronics and automotive industries in Thailand. And over the past 15 years, the company's sale has grown by over 10 times. In April 2014,

I took up appointment of Director of SIAM DKT CO., LTD. that was invested in by DAIDO KOGYO (THAILAND) CO., LTD. and I am entrusted to monitor overall business of the company. I deeply believe that we still have new business chances and the company will prosper along with economic growth of Thailand.

Ms. SUPANNAKIJ EAMNGAM
Daido Steel (Thailand) Co., Ltd.

This time is a good opportunity for steel industry of Thailand to learn special knowledge and know-how from Daido Steel, which decided to take all current as well as new technology from Japan to here and established Daido Steel (Thailand) which strives to manufacture and develop quality forging products.

Being involved in starting Daido Steel (Thailand) from the initial stage is a rewarding experience for me. I have chances to learn new things and gain a lot of knowledge. I am so proud to be a part of the company. As HR Manager, I am dedicated to improving the quality of employees, and contributing to a better tomorrow for them. I do hope to see newcomers grow together with us.
